SKILLS

- **Programming Languages:** *Python, Java, SQL, HTML5, Jupyter Notebooks*
- **Key Skills:** *Microsoft Office Suite, Device Technician, Generative AI, Data Automation, Linux Server Administration, Cloudflare*
- **Libraries/Tools:** *Tableau, pandas, NumPy, seaborn, matplotlib, scikit-learn, SciPy*
- **Operating Systems:** *macOS, Windows, Linux*

RELEVANT COURSEWORK

- Mathematics – Pre-Calculus | Calculus | Statistics | Matrices & Linear Algebra
- Computer Science – Database Design and Implementation | Data and Society | Business Computing | Computer Science I & II | Model & Society | Data Structures & Design | Logic & Algorithms

EDUCATION

Bachelor of Science in Data Science – Major GPA: 4.0

University of North Carolina at Charlotte - Expected December 2027

Awards: Chancellor's List, Spring '26 – maintained a 4.0 GPA

Associate Degree in Communications

Guilford Technical Community College - May 2020

EXPERIENCE

Assistant Manager

Benjamin Moore Paint Company, Charlotte, NC | August 2025 - Present

- Oversee daily store **operations**, including inventory management, reporting, employee scheduling, and cash flow.
- Manage client accounts and coordinate with the in-house sales representative to support commercial customer relationships.
- Train staff on compliance procedures and company policies, demonstrating a strong grasp of protocol enforcement and **regulatory adherence**.

Assistant Manager – Head Device Repair Technician

Batteries Plus Bulbs, Charlotte, NC | July 2021 – August 2025

- Earned Apple and WISE technical certifications and applied certified repair procedures in daily operations.
- Managed device intake, repair workflows, and service operations.
- Processed insurance claims for cellular devices and performed repairs in accordance with **Apple's protocols**, demonstrating attention to detail and adherence to established procedures.
- Maintained commercial client accounts by coordinating deliveries, monitoring account balances, and supporting ongoing account management.

PROJECTS

Bank of America Data Analysis Research Project - OLS Regression Analysis

- Led a research project on behalf of the City of Charlotte to determine whether sharing the Bank of America Stadium renovation costs with Tepper Sports & Entertainment (TSE), owner of the NFL's Carolina Panthers, would be a worthwhile investment in terms of city and tourism revenue.
- Used **API** calls to collect tourism and municipal revenue data from other cities.
- Parsed data and cleaned missing values in Python using libraries such as **pandas** and **statsmodels**.
- Used **Python** (**pandas**, **statsmodels**, **seaborn**) to analyze correlations and develop **OLS regression models** to generate predictions based on collected data.

Winter Olympic Data Analysis Research Project - OLS Regression Analysis

- Built regression models using Python libraries such as **pandas** and **statsmodels** to analyze 2022 Winter Olympic data and make predictions for future Olympic Games.
- **Cleaned** and structured datasets in Python to support **model accuracy** and improve data quality.
- Generated **predictive insights** from the model and **evaluated model performance** by comparing the predictions with 2026 Winter Olympic data.

Self-Hosted Linux Server

- Built and deployed an **Ubuntu** server with **Docker** applications.
- Configured a reverse proxy, subdomains, and **Cloudflare** integration.
- Managed **networking**, system performance, and containerized services.
